Team Scion Eyed was formed in April of 2004 by several Austin area Scion owners to be the first club to represent Scion enthusiasts throughout the state of Texas. We also work with Toyota to establish communications between owners and the people that help make the Scion a reality, so future owners will benefit from our experiences.

Team Scion Eyed is made up of people from different walks of life with a common desire to share our experiences and our love for our Scions. We gather for quarterly meetings, and have at least one activity per month. We drive to car shows, local meets, out to dinner, and travel to points of interest. Sometimes, we just hang out to share stories and compare vehicles and accessories. We currently have just over 80 members, but are continuing to spread throughout the gulf coast region.
